ADDENDUM TO SEARCH WARRANT

Your Affiant James Byfield, is a duly commissioned officer with the Boulder Police Department. Your Affiant is currently assigned to Detective Division of the Boulder Police Department and is currently involved in the investigation of the circumstances leading to the death of JonBenet Ramsey, a six year old girl whose death was discovered on December 26, 1996.

On December 26, 1996, Your Affiant made an application for a search warrant for the premises of 755 15th St., Boulder County, Colorado. The warrant was signed by the Honorable Judge Diane R. MacDonald. A copy of this warrant, attachments, and the approved affidavit are attached hereto and incorporated by reference herein.

Your Affiant was present during the search of the premises of 755 15th St. The search was commenced at approximately 20:20 on December 26, 1996. The body of the deceased was removed by Pat Dunn of the Boulder County Coroners Office, pursuant to the warrant. The child was transported to Boulder Community Hospital. On December 27, 1996 a post mortem examination was conducted by Dr. John Meyer, the Boulder County Coroner.

On December 27, 1996, Det. Linda Arndt of the Boulder Police Department was in attendance at the post mortem examination of the body of JonBenet Ramsey examination conducted by Dr. John Meyer. Det. Arndt informed Your Affiant that the clothing that the child was wearing at the time of Dr. Meyer's post mortem examination was the same clothing that she observed the child to be wearing when the body was initially discovered.

At approximately 11:20 hours on December 27, 1996, Det. Arndt informed Your Affiant of the following information:

Det. Arndt informed Your Affiant that she observed entangled in the hair of the child a green substance. Based upon her observations while at the residence on December 26, 1996, she believed that the green substance observed in the hair of the child was consistent with the green "garland" like decorative Christmas material that she had observed to be decorating the spiral staircase inside the child's home.

Det. Arndt stated to Your Affiant that she was present and observed a visual examination by Dr. Meyer of the shirt worn by the child. She observed and Dr. Meyer preserved dark fibers and dark hair on the outside of the shirt

Det. Arndt told Your Affiant that she personally observed Dr. John Meyer examine the vaginal and pubic areas of the deceased, Dr. Meyer stated that he observed numerous traces of a dark fiber.

In the presence of Det. Arndt, Det. Tom Trujillo of the Boulder Police Department, used a black florescent light to view the body including the pubic area of the victim in an attempt to observe the possible presence of semen or seminal fluid. (Your Affiant knows from previous experience and training that substances such as semen or seminal fluid, not visible to the unaided eye, may become visible when viewed under a black florescent light). Det. Arndt stated that she observed florescent areas of the upper inner and outer left thigh, as well as the upper and inner right thigh. Det. Arndt stated that her observations of the result of the black florescent light observation is consistent with the presence of semen or seminal fluid.

Det. Arndt informed Your Affiant that she observed Dr. Meyer swab these florescent areas. Dr. Meyer was also observed by Det. Arndt to obtain vaginal, oral and anal swabs from the child's body.

Det. Arndt informed Your Affiant that Dr. Meyer stated to her that he observed red stains in the crotch area of the panties that the child was wearing at the time that the child's body was subjected to the external visual examination. Dr. Meyer stated to Det. Arndt that the red stain appeared to be consistent with blood. Det. Arndt further informed the Affiant that Dr. Meyer stated to her that after examining the panties (as described above), he observed the exterior pubic area of the child's body located next to the areas of the panties containing the red stains and found no visible reddish stains in that area. Dr. Meyer stated to Det. Arndt that his opinion is that the evidence observed is consistent with the child's pubic area having been wiped by a cloth.

At approximately 14:00 hours on December 27, 1996 your affiant was called by Det. Arndt. Detective Arndt stated she was present when Dr. Meyer, as part of the autopsy procedure on JonBenet, examined the skull of the child. Dr. Meyer stated to Det. Arndt that the right side child's skull had a linear fracture which ran the entire length of the skull, measuring 8.5" in length front to rear. Dr. Meyer observed recent fresh hemorrhage to the brain consistent with the skull fracture line and running its entire length. A rectangular shaped, displaced piece of skull was observed measuring 1.75" x .5". The placement of bruising and the skull fracture on the same side of the child's skull, in the opinion of Dr. Meyer, was consistent with a blow to the head.

Your Affiant believes that probable cause exists to amend the previously issued search warrant for the premises of 755 15th St. City and County of Boulder, Colorado, as described on the face of the previously issued search warrant for that premises (which is attached hereto and incorporated by reference) in order to search for and seize the following items of evidence which may be of material aid in the investigation of the facts surrounding the death of JonBenet Ramsey. to wit:
